AIC A 002/20
10/4/2020

AIC A 002/20 – flights coordination out side-controlled airspace

1 purpose .

- A. Coordination of communications outside the controlled airspace .
- B. Obtaining permission to take off flights from uncontrolled airports .

2 Introduction

The Civil Aviation Authority stresses that aircraft leaders operating outside the field of high communications need to use the assigned radio frequencies to exchange information between pilots.

3 Scope

The scope of this bulletin is the exchange of information between pilots.flying outside of the range of normal VHF range in Libya airspace.

4 Affectivity

This AIC shall be effective from the date of publication .

5 Applicability:

The pilot of the aircraft operating in the Libyan air Space

- A. The Libyan Civil Aviation Authority Stresses the pilot of aircraft operating outside the field of high Communications for the necessity of using VHF/ RT RANGE .Radio frequency assigned to exchange information between pilots VHF AIR / AIR VOLUNTARY REPORT .
- B. For more coordination between the opposing air traffic, especially those operating outside the controlled airspace, in order to ensure the safety of air navigation in the Libyan Aviation Territory and the mentioned radio frequencies are:
 - 1- When flying at or below the flying level FL200 Frequency 123.5 MHZ
 - 2- When flying Above a flight level FL200 Frequency 126.9 MHZ
- C. This authority also stresses the need to obtain prior permission for flights before taking off from airports that are not subject to the major air traffic control centers in Tripoli and its branch in Benghazi by way of high-frequency radio

communication. HF/RT or any available means of communication or by the following phones,

- Tripoli Control Center / 3619614 - 3619380
- Benghazi Control Center / 0613350107
- Sabha Airport Tower / 0712622571
- Kufra Airport Tower / 0647502201
- LBQ Airport Tower / 0694637164

Note: this AIC replaces AIC A 002/09
